TORINO SOCIAL INNOVATION
Startup funded by FacilITo Giovani

3DOERS

www.3doers.it

3doers is a collective 3d printing service. This project starts in Jan 2014 and aims to form a community of printers that will print for other people. How does the service work? A User can upload a 3d project, a printer will select it, and after the payment he will print it and send it to the user's home. If the user is not sure of his project can select the "review option" and a registered member will check and review the file. Anyone can print for anyone else, it does not matter where you live, the shipment cost is included in the process price.
